

# Lynx LN15ICE Built-In Clear Ice Maker

Premium 15-inch clear ice maker for outdoor kitchens, luxury patios, home bars, cocktail stations, entertainment rooms, and residential beverage service.

Model	Ice Type	Daily Output	Application
Lynx LN15ICE	Clear Ice	Up to 39 lb/day	Built-in / Outdoor-certified

## Product Overview

The Lynx LN15ICE Built-In Clear Ice Maker is designed for premium beverage spaces where ice appearance matters as much as performance. Its 15-inch built-in format makes it a strong choice for outdoor kitchens, cocktail stations, home bars, entertainment rooms, and luxury patio setups that need clean, polished ice on demand.

This model produces up to 39 lb. of clear ice, making it ideal for cocktails, spirits, sparkling drinks, iced coffee, and elevated home beverage service. Clear ice gives drinks a cleaner appearance and a more premium presentation, making it a preferred choice for homeowners who care about the full drink experience.

The stainless steel construction supports a refined built-in look, while the reversible door provides more flexibility during installation. With CSA outdoor certification, audible alerts, programmed cleaning reminders, and a close-door assist system, the LN15ICE is built for customers who want a premium ice maker that looks professional and performs reliably in indoor or covered outdoor settings.
