

Scotsman C0522SA-1 Prodigy Ice Cuber

Commercial air-cooled small-cube ice machine head for restaurants, cafes, bars, hotels, convenience stores, foodservice kitchens, and beverage service stations.

Model	Ice Type	Daily Output	Application
Scotsman C0522SA-1	Small Cube / Half-size Cube	Up to 475 lb/day	Commercial ice machine head

Product Overview

The Scotsman C0522SA-1 Prodigy Ice Cuber is a commercial ice machine head built for businesses that need reliable cube ice production in a compact footprint. It is a strong fit for restaurants, cafes, bars, hotels, convenience stores, and foodservice kitchens that depend on consistent ice output for daily beverage service.

Producing up to 475 lb. of small cube ice per day, this machine gives operators enough capacity for high-traffic drink stations, prep areas, and customer service needs. Small cube ice works well in soft drinks, cocktails, iced tea, coffee drinks, and general foodservice use because it chills beverages quickly and dispenses easily.

The Prodigy design also supports easier maintenance. Automatic alerts help notify staff when descaling or sanitizing is needed, while the front-located air filter makes routine cleaning more accessible in tight commercial spaces. For businesses that want dependable cube ice without a wide machine body, the C0522SA-1 offers a strong balance of output, serviceability, and commercial durability.

Key Features

- Produces up to 475 lb. of small cube ice per day
- Small cube / half-size cube ice format
- Air-cooled ice machine head
- Compact 22-inch wide design
- Automatic descaling and sanitizing alerts
- Front air filter for easier maintenance
- One-touch cleaning support
- NSF listed
- UL listed
- Made in America

Technical Specification Summary

Specification	Details
Product Name	Scotsman C0522SA-1 Prodigy Ice Cuber
Machine Type	Commercial ice machine head
Ice Type	Small cube / half-size cube ice
Daily Ice Production	Up to 475 lb. per day
Cooling Type	Air-cooled

Specification	Details
Width	Compact 22-inch wide design
Maintenance Support	Automatic descaling and sanitizing alerts
Air Filter Access	Front air filter for easier maintenance
Cleaning Support	One-touch cleaning support
Listings	NSF listed and UL listed
Origin	Made in America
Recommended Use	Restaurants, cafes, bars, hotels, convenience stores, commercial kitchens, and beverage service stations

Best For

Restaurants, cafes, bars, hotels, convenience stores, commercial kitchens, and beverage service stations.
