

XO XOUM1565SP Built-In Gourmet Ice Maker

Premium 15-inch built-in gourmet ice maker for kitchens, home bars, cocktail stations, media rooms, and residential beverage service areas.

Model	Ice Type	Daily Output	Storage	Application
XO XOUM1565SP	Clear top hat gourmet ice	Up to 65 lb/day	Up to 27 lb	Residential undercounter & beverage presentation

Product Overview

The XO XOUM1565SP Built-In Gourmet Ice Maker is designed for homes, bars, and entertainment spaces that want clear, top hat-style gourmet ice in a premium undercounter format. Its 15-inch built-in design makes it a strong fit for kitchens, home bars, cocktail stations, media rooms, and beverage service areas where both style and ice quality matter.

Producing up to 65 lb. of gourmet ice per day and holding up to 27 lb., this unit helps keep crystal-clear cubes ready for cocktails, spirits, iced coffee, sparkling drinks, and everyday entertaining. Clear gourmet ice gives drinks a refined look and helps create a more elevated serving experience compared with standard cloudy ice.

The fingerprint-resistant stainless steel finish keeps the exterior looking clean, while the zero-clearance hinge supports a flush built-in installation. With a factory-installed drain pump, this model also gives more placement flexibility when the drain is farther away or positioned above the machine drain outlet.

Best For

Home bars, kitchens, cocktail stations, entertainment rooms, luxury beverage setups, and residential undercounter installations.
